# MEYERLUB & ANDEROL®

## A LONG SUCCESS STORY

**MEYERLUB®** was established by the acquisition of 100% of Anderol Italia shares by the **Meyer Family**, actively engaged for over 50 years in the synthetic and specialty lubricants market. Since 1977, it is the **Exclusive Distributor** of the prestigious brand **ANDEROL®**, having the highest number of clients and revenue in Europe.

Today **MEYERLUB®** has full autonomy over its strategies, formulations, product range and marketing areas, aiming to expand their fields of action and to secure a stable and structured continuous growth.

## OUR WORLD

### PROFESSIONAL LUBRICATION

- Specialty synthetic lubricants: with a dedicated complete range for **Earth Moving**.
- 45 years of experience with Anderol in Research, Development, Application of lubricants in the most demanding operating conditions.
- Our lubricants exceed in performance the most recent and severe international Specifications.
- Demonstrable and substantial benefits in terms of longer service life, lower consumption and resistance to deposit formation.
- Lower operating, maintenance, spares and downtime costs.

***A recognised high reputation, from field experience in every sector, with our traditional top quality and reliability.***

2004 - 2011 - 2012 - 2019

2004 - 2008 - 2010

2009 - 2010

2018

In the Off Shore Legend with **ANDEROL® 800 20W50**

# OUR FRONTIER

## READY FOR ANY CHALLENGE

### LUBRICANTS FOR HARSH CONDITIONS AND HOSTILE ENVIRONMENT:

- High load and temperature.
- Presence of humidity and water, also in immersion.

### SPECIAL PROPERTY LUBRICANTS:

- Severe load, temperature, speed.
- Food-grade for incidental or systematic food contact.
- Biodegradable.
- Fire-resistant.
- "Tailor-made" grades, especially developed for individual customers/applications.

## AT THE FOREFRONT

### EXCELLENCE AT HAND

**PROPERTY**  
Naturally polar

**CONSUMPTION**  
Up to 35% lower

**ENERGY SAVING**  
7% average

**OIL LIFE**  
Up to 10 times longer  
oil drain periods

**HIGH TEMPERATURE**  
Up to 370°C

**LOW TEMPERATURE**  
Down to -60°C

# APPLICATIONS

## RELIABILITY AND EFFICIENCY

- Air and gas compressors
- Vacuum pumps
- Refrigerating compressors
- Bearings, chains, also at high temperature
- Gearboxes and Transmissions
- Special Transmissions
- Internal combustion engines
- General lubrication
- Special grease lubrication
- Heat transfer systems

# OEM's APPROVALS

## MORE THAN 100 BRANDS

From long lasting constructive partnership, our lubricants enjoy **technical approvals** and **recommendations** by the most important international machinery Manufacturers. Some of them are:

... and many others.

# SPECIAL PRODUCT LINE FOR EARTH MOVING

**MEYERLUB®** is the Exclusive Distributor of the prestigious range of **ANDEROL®** synthetic oils and greases, ideal for the most severe applications. In addition to these, there is the **MEYERLUB®** original product range. A complete, high quality line, formulated from our own technical offices. Here is an excerpt:

Application	Product line	Description	Temp [°C]
OILS & FLUIDS			
Engine Cooling Systems	FREEGEL & PROTEC	Full range of diluted and concentrated Antifreeze FLUIDS, also in Food-grade and Biodegradable version.	-
Hydraulic Systems	HYDROIL-SRC	Synthetic, for highly loaded and high temperature hydraulic and circulatory systems. Long-Life. Very high V.I.	-
	PRESSOIL & PRESSOIL-HIV	High performance fluids for heavy-duty hydraulic and circulatory systems, also with very high V.I. version.	-
	HYDROIL-B	Synthetic, biodegradable fluids. For environmentally friendly hydraulic and circulatory systems.	-
	HYDROIL-FR	Synthetic, fire-resistant for hydraulic and circulatory systems in steel works and similar environment.	-18+120
Engines	ENGISYN	Full range of Synthetic oils, for all kinds of 4-Stroke gasoline and diesel Engines.	-
	MYTHOS-SX	Semi-synthetic diesel engine oils, for heavy-duty service, ACEA E7/E9.	-
	MYTHOS	Range of diesel engine oils for commercial an passenger vehicles. Long-life.	-
	SYNTHETIS	Range of Synthetic oils, for 2-Stroke Engines.	-
Automotive Transmissions	MATRIX & MYTHOS	Full range of synthetic and mineral fluids, including UTTO types, for manual and power-shift transmissions in Agricultural and Earth Moving machines.	-
	MATRIX-ATF MATRIX-CD MATRIX-STF	Full range of oils for Automatic Transmissions, Steering Systems, RACING and loaded Gearboxes.	-
	POWER	Full range of oils for Gearboxes, Differentials, Automatic Transmissions.	-
	SBLOKKY	Highly effective penetrating and loosening fluid. Also available in aerosol can.	-
GREASES			
Adhesive & Water Repellent	ALESYN-CL	Multipurpose semi-Synthetic greases, with PTFE.	-22+180
	ARTOS	Multipurpose semi-Synthetic greases, also available with MoS2.	-22+160
	ARTOS-F2	Semi-Synthetic tacky grease for Pins, Bushes, Joints.	-
	BASIC-PLUS	Very tacky and water-repellent greases, for Pins, Bushes, Joints, slow bearings.	-28+130
	BASIC-R	Very tacky and water-repellent greases, for Pins, Bushes, Joints.	-25+130
	HYDRA	Very tacky, EP, water-repellent greases, with solid lubricants.	-20+210
	MASTER	Tacky grease, with Graphite, for fifth wheels, leaf springs, open gears, screws and chains, wire ropes.	-20+220
	TRAKER-MB	Special EP grease, for centralised lubrication systems of heavy duty vehicles.	-26+130
	FUNIGEL	Compounds grafitati per funi e ingranaggi scoperti.	-34+150
	XTRA	Hyghly tacky greases, for Pins, Bushes, Joints and some applications in the Textile Industry.	-20+200
	FASTER-S	Tacky grease, in Ozone-friendly aerosol can, for high speed chains, pins, slideways.	-
High Temperature	EXTREME	Range of PAO-based, Synthetic greases, with PTFE, covering a wide range of specific requirements of speed, load, harsh conditions. Wide temperature range. Very long service life.	-35+200
	SPHERA	Lithium-complex, EP, multipurpose greases, for plain and roller Bearings in heavy-duty service.	-28+205
	VULCAN-SC	Multipurpose high load and high temperature greases, very strong EP performance, water-repellent, offer top level anti-rust and anti-corrosion protection.	-30+180
	VULCAN	Inorganic-thickened, high temperature, non-melting grease.	-20+230
Biodegradable	BIOLUBE-G	Biodegradable for Bearings, Screws and Slideways, also in immersion.	-28+140
	BIOLUBE-SPECIAL NF	Biodegradable, heavy-duty synthetic greases, for Bearings, Open Gears, Screws and Slideways, also in immersion.	
Hydraulic Breakers	LORAX	A wide range of specially developed greases for hydraulic breakers, with tailor-made oils and solid lubri-cants. Available to meet all kinds of requirements, in terms of very high or very low ambient temperature, different automatic gresing systems, duty severity, cost/benefit requirements.	-20+200
AUTOMATIC LUBRICATION			
General Lubrication	CENTRALISED UNITS	Full range of Multipoint Centralised Greasing Units, for Oils and Greases, to meet all demands in terms of delivery rate and performance.	
	HD-LUBER	Automatic lubricators with wide range of tank capacity and delivery rate settings.	
	LUBEMATIC	Cost-effective automatic lubricators.	
	SIMALUBE	Automatic lubricators with a wide range of delivery rate settings and very flexible operation.	
SANITIZERS & DETERGENTS			
Sanitizers	A18S	Sanitizer for all surfaces, certified. Heavy-duty detergent, non-hazardous, non-aggressive and biodegradabile.	
	BYOXAN	Hand sanitizing gel, alcohol-based (70 % volume).	
	BYOCAR	One-shot spray can. Sanitizer for car interiors and small volume spaces. Non-hazardous, non-aggressive.	
Degreasing	BYO-2	Water-based, heavy duty detergent/degreaser, biodegradable and "food-grade". NSF Registered in Cat A1.	

# LUBRICATION SYSTEMS

## INTEGRATED PACKAGE

Selection of automatic single and multi-point lubricators.

Centralized units for grease and oil distribution.

Lubricants transfer and storage equipment.

## SERVICE

### ALWAYS BY YOUR SIDE

**CHEMICAL LABORATORY**  
Fully owned and integrated

**SALES RETAIL**  
Available worldwide

**TECHNICAL SUPPORT**  
Experts in tribology

**CUSTOMER SERVICE**  
Available 24/24

**TEAM**  
Women and men united in the MEYERLUB spirit

**TECHNICAL TRAINING**  
Dedicated Technical Seminars
